THE SAN DIEGO UNION-TRIBUNE WEDNESDAY, MAY 19, 1999

Notice of Signing Action Memorandum for Installation Restoration Program Site 14 Former Naval Training Center, San Diego

On May 14, 1999, the U.S. Navy signed an Action Memorandum "addressing the proposed removal action of installation Restoration (IR) Program Site 14, also known as Point of Interest 27 former Small Arms Range No. 2, at former Naval Training Center (NTC) San Diego. The purpose of this Action Memorandum is to document, for the Administrative Record, the pertiment of the Navy's decision to undertake a non-time-critical removal action for anti-mony and lead-contaminated soil at IR Site 14, under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and in accordance with factors set forth in the National Oil and Hazardous Substances Pollution Contingency Plan.

Contingency Plan.

IR Site 14 consists of former Building 192, which was used as an indoor small arms range from 1942 until 1993. The floor of the building was a concrete slab with an area of sand and diri. The sand and diri area was used as a target area and sand trap for bullets. In 1994 the building was demolished. Site 14 currently is an unused field overgrown with weeds. The source of contamination at Site 14 is lead and, to a lesser degree, antimony that originated from bullets used at the small arms range.

small arms ranse.

This removal action would reduce antimony and lead contamination (the hozardous substances of concern) at IR Site 14 to an acceptable level by excavation and off-site disposal of the contaminated soil to an appropriate federally certified disposal facility. The area of soil contamination is approximately 1.35 acres. The removal action addresses only soil contamination since groundwater at IR Site 14 has not been affected by antimony or lead. This removal action is expected to fulfill site closure and require no further action for soil at IR Site 14.

The Administrative Re-

The Administrative Record is located at the Southwest Division's Environmental Technical Library located at 1220 Pacific Highway, San Diego. Contact Ms. Diane Silva, Records Manager, for further information at (619) 532-3676.

The Action Memorandum and other key documents are also available for review at the former NTC Information Repositories located at the downtown (main) San Dieso Library (820 E Street) and the Point Loma Branch Library (2130 Poinsettia Drive). For information on the operating hours of the libraries, please call (619) 236-5800 (downtown) or (619) \$31-1539 (Point Loma
